

# UZH Student Experience

UZH provides an environment that allows students to develop their talents to the fullest, overcome the everyday challenges of their studies, and feel comfortable doing so.

## Personal development

Students engage with scientific questions and ways of thinking. They learn to grasp complex issues and act in a well-thought-out way. At the same time, they draw on the inspiration and experiences of their time at university to support their personal growth.

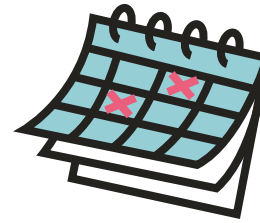

## Ownership

Students take ownership of their studies. They shape their individual educational paths and prepare to lead a self-determined professional life. Support

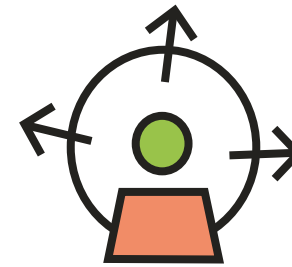

## Support

Students support one another. They also have access to UZH's wide range of specialist and advisory services, through which they can find solutions to specific challenges.

## Commitment

Students take their responsibilities seriously and treat their own resources and those of others with respect. They can expect the same from teaching staff and other university employees.

## Engagement

Students get involved and take on responsible roles both inside and outside the university. In doing so, they make their studies even more meaningful.

## Networking

Students exchange views and ideas with one another, make use of UZH's interdisciplinary and transdisciplinary offerings and gain international experience.

## Inclusion

All students belong to the UZH community. They treat their peers and other members of the university community with respect.
